1. Merchant Telemetry & Proof of Delivery

- Delivery Status Log: DELIVERED
- Digital Item / Voucher Redeemed: YES (Verified via Service Webhook)
- Delivery Delay: 3 seconds
- Dispute Claim Reason: PAID_BUT_NOT_RECEIVED

2. AI XAI (Explainable) Fraud Finding

Reason Code Analysis:
FRIENDLY_FRAUD_DETECTED: Product delivered and redeemed. Claim 'PAID_BUT_NOT_RECEIVED' contradicts delivery evidence.

3. Defense Statement for Acquiring Bank

The customer initiated a claim stating 'PAID_BUT_NOT_RECEIVED'. However, system audit logs confirm that the payment was captured and the digital product/service was delivered and consumed within expected SLA limits. This claim exhibits standard patterns of First-Party Friendly Fraud. We request the acquiring bank to reject the chargeback request and release escrow funds.
